

- Nitrogenase iron protein (NifH)
- Nitrogenase molybdenum–iron protein alpha chain (NifD)
- Nitrogenase molybdenum–iron protein beta chain (NifK)
- Nitrogenase iron-molybdenum cofactor biosynthesis protein (NifE)
- Nitrogenase iron-molybdenum cofactor biosynthesis protein (NifN)
- Nitrogenase-like enzyme (NFL)
- FeMo cofactor biosynthesis protein (NifB)
- Nitrogenase vanadium–iron protein alpha chain (VnfDG)
- Nitrogenase vanadium–iron protein beta chain (VnfK)
- Light-independent protochlorophyllide reductase subunit L (ChlL)
- Light-independent protochlorophyllide reductase subunit N (ChlN)
- Light-independent protochlorophyllide reductase subunit B (ChlB)
